ONE TOUGH ANIMAL

► HISTORY OF BOBCAT

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid-steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today. With an ever growing portfolio, Bobcat now offers a range of solutions for any job site.

► YEARS OF EXPERIENCE

In 2021, Bobcat expanded its portfolio by acquiring Doosan Industrial Vehicle, a specialist in material handling equipment. In 1968, Doosan developed its first forklift and later achieved a global presence.

► OUR MISSION

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.
